EDUCATION
Computer Science, Jilin University
M.S., Sep. 2018 – Jul. 2021

Computer Science, Jilin University
B.S., Sep. 2014 – Jul. 2018

EXPERIENCE
2014: --Assembled a PC from motherboard, CPU, RAM, etc.
    --Went to college trying to understand how computer works.
2015: --In course *Introduction to Computing Systems*, programmed recursion and linked list in LC3 assembly language and C respectively. (assignment)
2017: --In course *IA-32 Assembly Programming*, read and modified the source code (x86 assembly) of a little OS on boot, dynamically load, boot an application, tasks switching and scheduling. (assignment)
2019: --Read the Chinese version of *A Heavily Commented Linux Kernel Source Code* which comments Linux-0.12 in details. Illustrated what I have read in seminar afterward (slides).
2020: --Commits to LLVM-libc.
